

Customer Requirements Prior to Coca-Cola Fountain: Install/Replacement/Relocation

- **Water Supply**
 - A 1/2" dedicated copper supply line with a separate water shutoff must be located within 6 feet of where the carbonator will be located. Ball or Gate Valves are preferred.
 - Use ambient or cold water.
 - Minimum pressure is 40 psi and maximum pressure is 75 psi
 - In areas with water that has an off taste or high contaminants, the use of a water filter is recommended.
 - Back Flow Preventer (must be installed by certified plumber)
- **Drain**
 - A floor sink 3" in diameter or larger is required within 3 feet of the dispenser.
 - An open floor sink with a center cone is preferred.
 - A 3 inch pvc floor drain is required within 3 ft. of the dispenser. No copper drain can be used.
- **Electrical Supply**
 - A dedicated 115 volt, 20 amp grounded duplex outlet within 6 feet of each dispenser, carbonator or air compressor is required.
- **Chase**
 - Chases must be used for underground tubing runs where foreign liquids or other product contaminants could be found.
 - Must be at least 4" in diameter and 6+" is preferred
 - Sweeping elbows, not 90° elbows.
 - End at least 3" above the floor surface to prevent any water from entering the conduit
- **Dispensing Area**
 - The counter must support at least 500 lbs. or the weight of the selected dispenser application.
 - 6" clearance requirement
 - Counter cuts should be completed by the customer prior to install
 - Ventilation for confined spaces
 - Counter design must meet all applicable ADA regulations (www.ada.gov)
- **Syrup Area & CO2**
 - The minimum footprint for a BIB product platform rack is 18" D x 30" W.
 - CO2 must be next to a solid surface so chains can secure them to wall. If bulk CO2, company been out to fill the tank?
- **Ice**
 - No flaked or bagged ice
 - If installing an ice maker on top of unit, please notify your Account Coordinator of the make and model of your ice maker so that we may order an ice maker adaptor kit.
 - Customer will need to coordinate the installation/removal of the ice maker with facilities or ice maker company.
- **Product (Bag in Boxes, OJ, Tea, etc.) and Full CO2 Tanks**
 - For product delivery and information, contact either your local bottler or food service distributor.

You will receive a call 2-4 days prior to the scheduled date to confirm readiness for the work. If any of the items listed above are not ready or readiness cannot be confirmed the install will have to be rescheduled to the Service Provider's next available date which may not meet your business needs.

Please notify your Account Coordinator, (Dupe Afolabi) at 1-800-531-2238 x 3234 or dafolabi@coca-cola.com as soon as possible if any changes occur that will delay this equipment installation.
